

Implementation Pathway

Getting started with Tribal Habits is much easier than most learning and knowledge sharing platforms as many settings and functions are pre-defined or 'set and forget' automations. To ensure that your initial journey with Tribal Habits is fast and efficient, we also have a free [Implementation Pathway](#) for all new businesses to follow.

The Implementation Pathway is built around five Tribal Habits topics which provide new businesses with a step-by-step process from setting up their account to managing on-going success. Each online topic contains 30-45 minutes of guided instructions, FAQs, examples and more to help each new business successfully implement Tribal Habits.

In addition to these five core topics, you can take advantage of additional support options to help accelerate your implementation.

Live Support Chat

- All Admin users in your portal can access our built-in live chat support feature. If live chat isn't available, they'll be emailed as soon as we respond.

Dedicated Knowledge Base

- All users can access support.tribalhabits.com for our searchable knowledge base and help site covering every aspect of Tribal Habits.

Free 'In-depth' Topics

- You can also access an additional five free Tribal Habits topics for your managers and staff on issues of position descriptions, training plans and coaching staff.

Packages: \$3,000 each

- Knowledge Success Package – Virtual workshops focused on training implementation.
- Induction Design Package – Virtual workshops focused on building an induction process.
